## Inclusion and Digital Empowerment of migrant youths and ethnic minorities through Circular Economy

### Main Outputs

#### 01 ✓ A Guide of Best practices

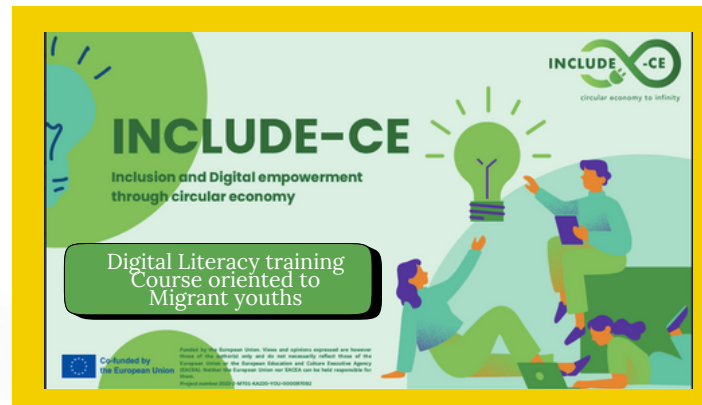

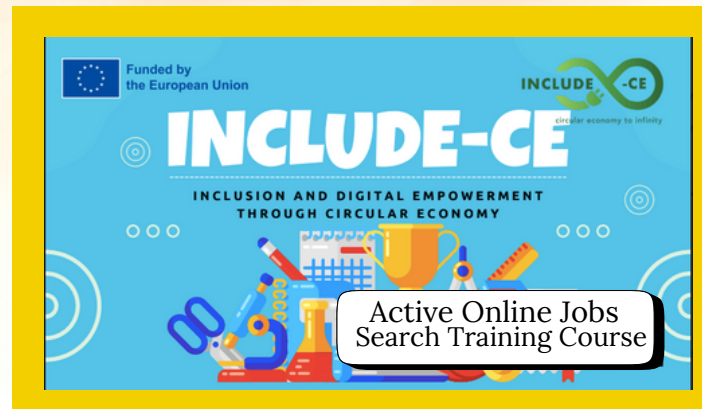

This guide contains activities, resources and success stories aimed at third sector professionals to acquire knowledge and develop skills and competencies to promote social inclusion and labour market insertion of migrants, and ethnic minorities; through ICT, through the circular economy and other environmentally sustainable actions.

#### 02 ✓ Active Online Jobs search Training Course

This course is intended as a training resource oriented to the needs of migrants and ethnic minorities to promote their employability and their own brand during the job search process. It promotes the development of knowledge, skills and competencies needed during the process of recruitment, selection, and personal interviews.

#### 03 ✓ Digital Literacy Course

The Digital Literacy Course consists of five training modules structured around two key areas that address the principles of circular economy and basic digital knowledge on the use of computer devices.

## Join us for The Project's Final Online Event
